Sol - - de - - laide comes _____ to us through time

And brings with light _____ the sigh of fates

Through space the worms _____ carry the shrine

And with these words _____ we cross the gates

1. A planet of gold in the sky
And moons of silver, shining eye
The lands of Soonja thus are made
On this distant world, Soldelaide.
Some million years they did travel
To settle where worms unravel
They seeded interstellar trade
All space routes lead to Soldelaide
2. With fields of ripe blue glowing fruits
And lands of purple, flaming roots
The Soonja people took up spade
On this distant world, Soldelaide
Some million years to navigate
And let the worms open the gate
The galaxy was theirs to wade
All space routes lead to Soldelaide
3. A space wind fairing deity
Solar clouds, temples of Hanee
The lands of Soonja none forbade
On this distant world, Soldelaide
Some million years dreams and journey
The worms found peace and equity
The world for which many had prayed
All space routes lead to Soldelaide
4. Soldelaide comes to us through time
And brings with light the sigh of fates
Through space the worms carry the shrine
And with these words we cross the gates (x2)
